

Mike Wray, Senior Technical Architect, Inhealthcare

Mike Wray heads up the software development and platform operations at Inhealthcare.

He's a Cambridge graduate with a masters in computing from London.

Mike joined Inhealthcare five years ago, having gained a background in financial, credit and banking software in the UK and USA, as well as public sector projects at the Borders Agency.

He has overseen the development of the Inhealthcare platform from a start-up to a national digital health platform.
