- **HIE Major Upgrade** from 2023.1.32 to 2024.1.8 planned to start January 2025.
- **EMIS moving to new API**, configured in test (no user impact)

Tip of the month

Did you know?

GP Connect provides GP data nationally. This will allow you to view GP Records for out of area patients. GP Connect provides 10 GP Reports which are available in the GP Records widget. Please follow this [user guide](#) for further information.

Benefits

We are developing a **Benefits Realisation Plan** to maximise the impact of the Great North Care Record (GNCR) for all stakeholders, including primary, acute, community, and mental health sectors. We need **your insights** to shape a framework that truly reflects the needs and priorities of healthcare providers and patients.

Scan the QR code below to complete our survey or express your interest in a one-on-one interview.
