

Great North Care Record: Medications

Scenario

This guide explains how to find medication information in Great North Care Record (GNCR). Please use the data in line with your clinical judgement.

Who shares Medications data?

The following organisations share this information:

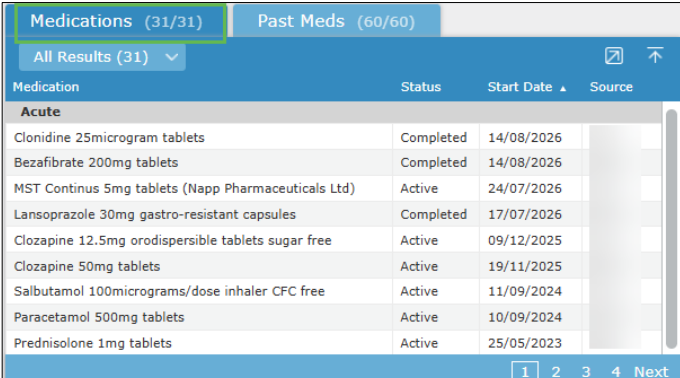

Organisation name	Where does it display in the record?
Community Services using SystmOne	Community > All Views > Medications
Community Services using EMIS	Medications
GP using EMIS and SystmOne	Medications
GP using any system	GP Records > Medication
County Durham and Darlington NHS FT (Maternity)	Medications
Gateshead Health NHS FT (Maternity)	Medications
Newcastle upon Tyne Hospitals NHS FT (Maternity)	Medications
North Cumbria Integrated Care NHS FT (Maternity)	Medications
North Tees and Hartlepool NHS FT (Maternity)	Medications
Northumbria Healthcare NHS FT (Maternity)	Medications
South Tees NHS FT (Maternity)	Medications
South Tyneside and Sunderland NHS FT (Maternity)	Medications

Medications Section

Medications

If the **GP** is using **EMIS** or **SystmOne** the Medications section will be populated. Active medications will be displayed in this section. Depending on the GP System, it can show as Active or Completed. Please refer to the patient and any other sources.

Medications prescribed by a hospital or other providers will only display here if the GP has added them into the GP Record. If a GP has added a hospital med as an 'acute', it may appear in Past Meds.

Medications (31/31)		Past Meds (60/60)	
All Results (31) ▼			
Medication	Status	Start Date	Source
Acute			
Clonidine 25microgram tablets	Completed	14/08/2026	
Bezafibrate 200mg tablets	Completed	14/08/2026	
MST Continus 5mg tablets (Napp Pharmaceuticals Ltd)	Active	24/07/2026	
Lansoprazole 30mg gastro-resistant capsules	Completed	17/07/2026	
Clozapine 12.5mg orodispersible tablets sugar free	Active	09/12/2025	
Clozapine 50mg tablets	Active	19/11/2025	
Salbutamol 100micrograms/dose inhaler CFC free	Active	11/09/2024	
Paracetamol 500mg tablets	Active	10/09/2024	
Prednisolone 1mg tablets	Active	25/05/2023	

Medication entries that do not have an End Date will appear in the Medications widget e.g. repeat medication. Medication entries with an End Date equal to today's date or a future date will be displayed in the Medications widget.

Please note: The end date may be auto populated by the GP system according to the supply/duration and may not always be an intended clinical stop date.

Information which can appear in the “Details” field:

1. Dose
2. Quantity
3. Supply Duration
4. Stopped Reason
5. Stopped Date
6. Prescriptions Issue and Allowed: Please note, “Allowed” is specific to that batch.
7. Last Issued Date
8. Expiry Date
9. Medication prescribed elsewhere details: There may be limited details, depending how the information has been inputted. For example: ‘prescribed by hospital’.

Please note: An additional comment will appear in **red** if the dosage (dose, quantity or supply duration) has been amended within SystmOne. **Prior dosages are unable to be shown from SystmOne.**

Medications (7) Details

Medication - GP Records

Medication

Medication will also display in the GP Records section.

- Provided is a list of acute medicines that are currently being, or have recently been, used to treat or prevent disease for the patient. Please note: Acute is typically 'one off prescriptions' or short courses used to treat/manage an acute condition. It may also include items which require prescriber review before prescribing such as controlled drugs.
- Provided is a list of repeat drugs or other forms of medicines that are currently being used to treat or prevent disease for the patient. Please note: Repeat covers patients regular medication.
- Provided is a list of discontinued repeat drugs or other forms of medicines. Please note: Discounted can be any medication that has been stopped. After 12 months acute prescriptions which have finished and repeat medication which have not been issued may be moved in to discontinued by GP.

Community services using SystmOne

If the service is using SystmOne the Community section will contain a single report titled '**All Views**'. Please be aware some reports can be long and across numerous pages. If care has been provided by more than one community unit then each unit will have a separate report listed.

The first section of the report is a summary, please note the full details for Medications are later in the report.

There is information available for:

- Acute Medication
- Current Repeat Medication
- Discontinued Repeat Medication
- All Medication
- All Medication Issues

Maternity Medication

This section will show To Take Out (TTO) Maternity Medication from:

- County Durham and Darlington NHS FT (Maternity)
 - Gateshead Health NHS Foundation Trust (Maternity)
 - Newcastle upon Tyne Hospitals NHS FT (Maternity)
 - North Cumbria Integrated Care NHS FT (Maternity)
- North Tees and Hartlepool NHS FT (Maternity)
 - Northumbria Healthcare NHS FT (Maternity)
 - South Tees NHS FT (Maternity)
 - South Tyneside and Sunderland NHS FT (Maternity)

1. If you hover your mouse over the row, further information will appear and in the 'Details' row it will identify that the medication is 'TTO' (To Take Out).

If you view the widget in 'Details', the TTO information will appear in the 'Details' column.

Medications (1) Details					
Medication	Details	Status	Patient Instructions	Ordering Clinician	Last
